## DATA PROTECTION ACT – PATIENT INFORMATION

**We take the confidentiality of your personal and medical information very seriously.**

We need to hold personal information about you on our computer system and in paper records to help us to look after your health needs, and your doctor is responsible for their accuracy and safe-keeping. Please help to keep your record up to date by informing us of any changes to your circumstances.

Doctors and staff in the practice have access to your medical records to enable them to do their jobs. From time to time information may be shared with others involved in your care if it is necessary. Anyone with access to your record is properly trained in confidentiality issues and is governed by both a legal and contractual duty to keep your details private.

All information about you is held securely and appropriate safeguards are in place to prevent accidental loss.

In some circumstances we may be required by law to release your details to statutory or other official bodies, for example if a court order is presented, or in the case of public health issues. In other circumstances you may be required to give written consent before information is released – such as for medical reports for insurance, solicitors etc.

To ensure your privacy, we will not disclose information over the telephone or fax unless we are sure that we are talking to you. Information will not be disclosed to family, friends, or spouses unless we have prior written consent, and we do not leave messages with others.

### **Data Sharing**

When appropriate, Trinity Medical Centre will share pertinent details of your clinical record between various care professional who are or will be involved in your clinical care (Extended hours GP, local hospitals, district nurses, out of hours services, health visitors, etc). This data is only used for your direct medical care.

You have the option to OPT OUT of these. Please ask the receptionist for further details on how to OPT OUT.

### **SMS TEXT messaging service**

We may use SMS messaging to communicate with patient who have provided us with a mobile number, for the purposes of health education/promotion and reminders.

Information sent via an SMS message will be generic and no information which identifies an individual patient such as a name, address, or other items of personal detail will be included. Information stating the reason for the message will be kept to a minimum.
